A marathon-like selection of six very demanding days, across the main mountain ranges in central Romania: Ciucas, Baiului, Bucegi, Piatra Craiului. Endless single tracks and trails leading through majestic forests, on idyllic meadows and impressive high-altitude pastures, with drop-dead gorgeous panoramic views over "The Transylvanian Alps."

It's more than mountains, it's also about meeting first hand the traditional life-style of the rural Romanian highlands, pretty much unaware of the XXI century technologies, benefits, and problems.

The tour is suitable for advanced cross-country, all-mountain and enduro riders. Each day offers a well balanced route, making you feel thrilled and accomplished in the evening without leaving your engine out of steam for the next morning. The routes are accessible from July to early October.
